

Buckland Friends of Wildlife Group in support of BBOWT

- **Volunteering on Saturday morning 20th July 2024 @ Chimney Meadows**

A maximum team size of 6 Buckland Friends of Wildlife Group volunteers for this particular work joined Lucy Garrod, Reserves Officer (Oxon), Chimney Meadows, BBOWT. Volunteering on part of the Chimney Meadows site not open to the public. A great opportunity to see this part of the site, and a nice place to spend time. A good morning clearing Ragwort which is poisonous to livestock, and clearing the invasive plant Himalayan Balsam.
